KMUH Shines in the Los Angeles Times!

Kaohsiung Medical University (KMU) has been featured in a special interview by the prestigious Los Angeles Times!

The article, now live, highlights KMU healthcare system's remarkable achievements and future vision through exclusive interviews with Chairman Eric Chen, President Ming-Lung Yu, and Superintendent Jaw-Yuan Wang of KMUH Chung-Ho Memorial Hospital.

The feature dives into KMU healthcare system's outstanding contributions in talent development, medical services, innovative research, smart healthcare, international collaboration, and sustainable practices. Here are some of KMU healthcare system's key highlights:

- **Education:** Training globally competitive medical professionals through comprehensive programs and international exchange platforms.
- **Healthcare:** KMU Chung-Ho Memorial Hospital's "Home Intravenous Nutrition Care Team" won the SNQ National Biotechnology and Medical Quality Gold Award, earning high praise for medical excellence.
- **Research:** Pioneering the world's first Hepatitis C micro-elimination program, with 14 KMUH researchers listed among the top 2% of global scientists.
- **Smart Healthcare:** Achieving HIMSS EMRAM Stage 6 certification and securing the Smart Hospital Certification twice, advancing AI-driven medical applications.
- **International Presence:** Ranked 8th in Taiwan on the "2025 World's Best Hospitals" list and actively participating in global medical forums.
- **Sustainability:** Awarded the TCSA Sustainability Award for six consecutive years, championing low-carbon, energy-efficient, and waste-reducing healthcare.
