

Anoro Ellipta[®]

(Umeclidinium 55mcg/Vilanterol 22mcg, 30 Dose/Bot)

For airflow obstruction in patients with chronic obstructive pulmonary disease (COPD)

Instructions for use

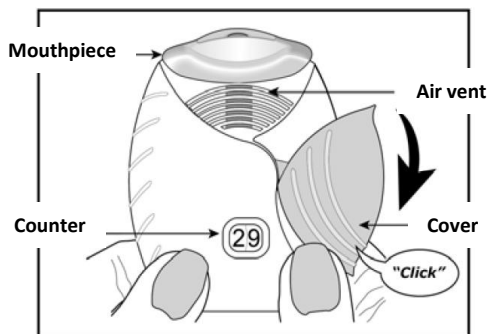

Check the counter

- Before the inhaler is used for the first time, the counter should show **the number 30**. This is the number of doses in the inhaler.
- Each time you open the cover, you prepare 1 dose of medicine.

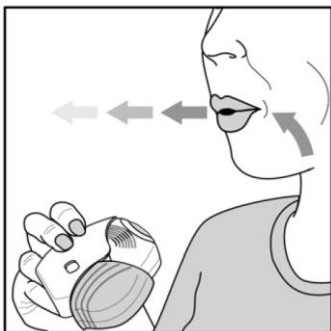

Prepare your dose:

Wait to open the cover until you are ready to take your dose.

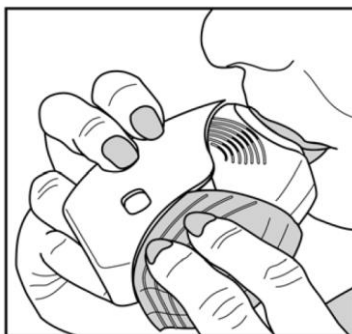

1 Open the cover of the inhaler.

- Slide the cover down to expose the mouthpiece.
- You should **hear a "click."**
- The counter will count down by 1 number.
- Your inhaler is now ready to use.

2 Breathe out.

- While holding the inhaler away from your mouth, breathe out fully.
- Do not breathe out into the mouthpiece.

3 Inhale your medicine.

- Put the mouthpiece between your lips, and close your lips firmly around it. Your lips should **fit over the curved shape of the mouthpiece**.
- **Take one long, steady, deep breath** in through your mouth. Do not breathe in through your nose.
- Do not block the air vent with your fingers.

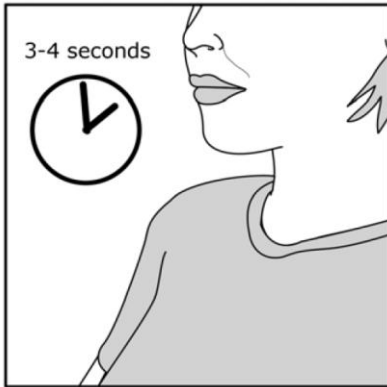

Anoro Ellipta[®]

(Umeclidinium 55mcg/Vilanterol 22mcg, 30 Dose/Bot)

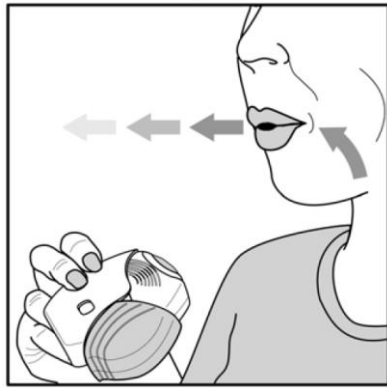

For Oral Inhalation Only.

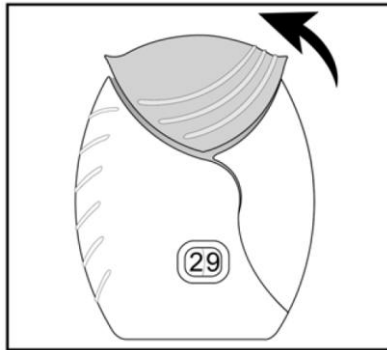

4 Hold your breath for about 3 to 4 seconds.

- Remove the inhaler from your mouth and **hold your breath for about 3 to 4 seconds.**

5 Breathe out slowly and gently.

- You may not taste or feel the medicine, even when you are using the inhaler correctly.
- Do not take another dose from the inhaler even if you do not feel or taste the medicine.

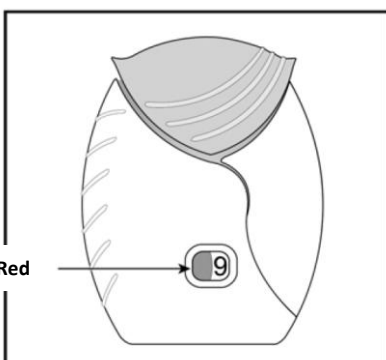

6 Close the inhaler.

- You can clean the mouthpiece if needed, **using a dry tissue**, before you close the cover. Routine cleaning is not required.
- Slide the cover up and over the mouthpiece as far as it will go.

The "Discard" date is 6 weeks from the date you open the tray.

Important Note:

When should you get a refill ?

- When you have less than 10 doses remaining in your inhaler, the left half of the counter **shows red as a reminder to get a refill.**
- After you have inhaled the last dose, the counter will show "0" and will be empty.
- Throw the empty inhaler away in your household trash out of reach of children and pets.
